CONTEMPT DECISION

Judge Pritchard Rules on Fiamous Case Against Joscphus Daniels.

EXCEEDED HIS AUTHORITY

Declares Purnell Was Without Jurisdiction and Dismisses Case-Careful Review.

(By Associated Press.)
ASHEVILLE, N. C., June 29.—Judge
J. C. Pritchard, of the United States
Circuit Court, at noon to-day filed his opinion in the celebrated case of Josephus

Judge Pritchard's opinion will be recog nized as an important legal record, and is a careful and comprehensive review of

UNWARRANTED CRITICISM.

UNWARRANTED CRITICISM.
"That newspapers sometimes engage in unwarranted criticism of the courts cannot be denied. In some instances they construe the liberty of the press as a license to authorize them to engage in wholesale abuse of the court, but instances are rare and do not warrant a departure from the well settled principles of the law, as declared by Congress and construed by the courts. If judges charged with the administration of the law are not to be criticised on account of their official conduct the liberty of the press is abridged and the rights of individuals imperfied.

For instance, if a newspaper should pub-lish an article concerning a trial which was being considered by a jury, and should send a copy of the paper containing such article to the jury or a member thereof, during the progress of the trial, for the purpose of influencing them in their de-cision, it would present a question

during the progress of the trial, for the purpose of influencing them in their decision, it would present a question whether such conduct would not be mischavior in the presence of the court or so near thereto as to obstruct the administration of justice. * * * WITHOUT AUTHORITY. "It appears that the distinguished judge who adjudged the petitioner to be in contempt of court exceeded the authority granted in the act of 1831, and the cdurt was without jurisdiction. Such being the case, the judgment of the court is void, and therefore a nullity. "In view of the foregoing, the court finds that the petitioner is unlawfully restrained of his liberty, and it is therefore considered and ordered by the court that the said Jusephus Daniels be discharged from the custody of the marshal of the United States, and that he so hence without day."

COSTLY WRECK -NEAR CULPEPER

Trainmen Are Injured.

(Special to The Times-Dispatch.)
(CULPEPER, VA., June 29.—A bad and costly wreck occurred near here in Maginniss deep cut, on the Southern Railing way, where the regular local freight train ran into a heavy ballast train, both going at a rapid rate of speed.

The fireman, Mr. Newman, of the ballast train, was instantly killed by being crushed to death between a great mass of hot twisted iron. Engineer John Decursy was also badly hurt internally. His left arm was broken and he sustained other injuries.

Conductor Jim Swayne, of the same train, was hurt, but not seriously. The engine, tender and cabose of the ballast train were almost a total wreck, and the engine and tender of the local freight were also badly darmaged.

The fault is attributed to the ballast train crew, who, it is said, had no flagman out to warm approaching trains.

The dead and wounded were quickly brought to Culpeper under the care of Dr. Alfred Rixey, company physician.

KILLED HIS PRISONER.

Police Officer James M. Stewart shot and killed this morning a negro man who is suspected of having committed murder in North Carolina. In response to a telegram, Officers Stewart and Dolan met the train which reaches Petersburg about 3 o'clock in the morning and they saw two men jump from the train and run. After a search, Officer Stewart found one of the men hiding under a car, but he refused to come out and the officer pulled him to the opposite side of the bumper. The negro' vigorously resisted and the officer tried in vain to quiet him. The negro, cursing, caught the officer by the throat and seemed to be trying to radw a weapon from his pocket, and the officer thinking his life was in danger, fired on the negro. The ball entered the man's throat and is supposed to have fractured the base of the skull. The negro and fis short distance and fell dying in a few minutes.

THE DECISION.

The text of the decision in part is as

follows:

"In order to determine whether the petitioner is entitled to the relief prayed for in the petition upon which the writ of habeas corpus was issued, it is necessary to determine two questions: (i) Did the court which imposed the sentence in this case have jurisdiction? (2) Does this court have jurisdiction to hear and determine this case on a writ of habeas termine this case on a writ of habeas

termine this case on a writ of habeas corpus?

"The force of public opinion in this country in favor of the freedom of the press has restrained the free exercise of the power to purnish this class of contempts, and in many jurisdictions statutes have been enacted depriming the court of the power to punish them. It was taken from the Federal courts by the act of Congress of 1831, which act deprives these courts of the common law power to protect, by this process, their suitors, witnesses, officers and themselves against the libel of the press, though published and circulated pending the trial of a cause therein.
